

# Drop Wire Conduit Bracket

CATALOG #: SI-1132

The drop wire bracket acts as a connection point between a traditional drop clamp and conduit. The bracket attaches to a conduit ranging from 2" to 3" in diameter by securing 1/4" diameter U-bolts. The drop clamp attaches to the bracket utilizing an existing SI-1130 drop wire hook.

## Application

- » Used as an attachment to conduit accepting the bail of drop wire clamps

## FEATURES

- » Steel Construction
- » Mechanically galvanized
- » Drop wire hook (SI-1130) can accept multiple drops
- » Bracket can accommodate ranging from 2" to 3" in diameter
- » Standard Pack is 50 per carton
- » Comcast CIFA 114287

## Cross Reference

### Part Number

- Belden/ PPC 40-00540
- Slacan 61342
- AlliedBolt 7022
